

JOEL FREEDMAN

3/13/11

Dear Tom,

I have purchased many boats and worked with many brokers over the past 30 years. My purchases ran from 29' to 67 footers and with big house brokers as well as independent ones.

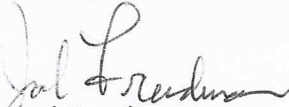

Working with you has shown me a whole new standard of excellence. The boat I purchased thru you was the smallest yet was the most pleasant of all purchases.

Your knowledge of the market found me the best boat and your guidance helped me negotiate a fair price.

Not only was the purchase process excellent but equally important to me was your help after my purchase. You recommended and helped in lining up key services, transported me and others on round trips to the boat which was 100 miles away, and always was available whenever I needed to speak to you. That is service that is above and beyond what is the norm and was greatly appreciated.

You are a credit to your profession and I can see why you are so well respected in the industry.

Thanks for all your help and I look forward to working with you again next year when I will be looking for a 50-60' sport fisherman.

Joel Freedman
